

Mission

The PLCforum is a leading international Association that represents the interests of manufacturers, energy utilities and other organisations (Universities, other PLC Associations, consultants, etc.) active in the field of access and in-home PLC (power line communications) technologies.

Members

The members and permanent guests of the PLCforum Association are the main worldwide key players in the Power Line Communications domain. Their number, position and commitment are a prime asset for the Association in the development of its activities.

Who should join?

The PLCforum Association is open to all those involved in markets for PLC technologies and services (utilities, manufacturers, research laboratories, etc) who would like to have the benefits of belonging to and being involved in a leading international association in the access and in-home PLC field.

The annual membership fee is Euro 5000. Some organisations (universities, public bodies and associations, for example) can be exempted from this fee and have the status of "permanent guest".

Why you should join

Benefits to members include:

- the information received and exchanged, and the networking developed at the plenary meetings held every 3 months and during which working meetings are organised by the operational structures of the PLCforum (Marketing Working Group, Technical & Regulatory Working Group).
- the knock-on effects for the PLC Industry as a whole and each member of the PLCforum in particular, of the PLCforum's many promotional and lobbying actions (web site, press activities, involvement in major events, dissemination of promotional material, focused lobbying meetings, co-ordination with standardisation bodies, etc).
- the gains in terms of image that belonging to a leading international Association represents for each member of the PLCforum.

How to join

To apply, please download the Association statutes, the Membership Application Form, the NDA Form at http://www.plcforum.org/frame_join.html

Then mail these documents, together with a short presentation of your activities in the PLC field, to the Secretariat of the PLCforum. Your application will be processed by the Secretariat, and then submitted to the Board, at its next quarterly meeting, for recommendation and to the General Assembly, the day after, for final decision.
